Cordova Electric Cooperative, Inc.; Adoption of Environmental Documents & Finding of No Significant Impact

**AGENCY:** Rural Utilities Service, USDA. **ACTION:** Adoption of Environmental Documents & Finding of No Significant Impact.

**SUMMARY:** Notice is hereby given that the Rural Utilities Service (RUS), pursuant to the National Environmental Policy Act of 1969, as amended, the Council on Environmental Quality Regulations (40 CFR Parts 1500–1508), and RUS Environmental Policies and Procedures (7 CFR Part 1794), has adopted the Environmental Assessment (EA) prepared by the Federal Energy Regulatory Commission (FERC) and made a Finding of No Significant Impact (FONSI) with respect to a hydroelectric project proposed by Cordova Electric Cooperative, Inc. (ČEC), of Cordova, Alaska.

CEC is anticipated to request financing assistance from RUS for the project to be located on Power Creek, a tributary to Eyak Lake, near Cordova, in southeast Alaska.

The proposed project is a 6-megawatt (MW) hydroelectric generating plant and it consists primarily of (1) A diversion dam and intake structure located at stream mile 3.3; (2) a tunneland-pipeline power conduit conveying water approximately 5,900 feet; (3) a powerhouse containing 3 generating units with a total installed capacity of 6.0 MW; (4) a 7.2 mile-long buried transmission line; and (5) approximately 2.5 miles of access road. The project bypasses of about 1 mile of Power Creek. On January 6, 1997, Whitewater Engineering Corporation (WEC) of Bellingham, Washington, filed an application to FERC for a license for construction and operation of the Power Creek Project. WEC will transfer the license to CEC. CEC will be responsible for compliance with the terms and conditions of the license. WEC will construct the project for CEC.

The FONSI is based on the final EA issued by FERC. RUS concurs with the FERC determination that issuing a license would not be a major Federal action significantly impacting the quality of the human environment. In accordance with § 1794.83, RUS has adopted the final EA issued by FERC as its EA for the project.
